

Galaxies

Near and Far, Young and Old

Vatican Observatory
Castel Gandolfo

14th Summer School

in Observational Astronomy
and Astrophysics

1 - 27 June 2014

Complete the application form at
www.voss2014.va
by 31 October 2013

Galaxy formation and evolution is at the forefront of modern astronomy research; new space and radio telescopes and sophisticated numerical modeling are challenging our views of galaxies young and old.

The faculty and special invited speakers will present a comprehensive series of lectures and hands-on projects in the unique ambience of the Papal summer villa that promises to make this school an unforgettable experience!
